

LabCorp Employees are the missing piece at the table.

The goal of this campaign has been, and will always be, to work towards getting you a seat at the table to negotiate YOUR contract. The hard working women and men of LabCorp are the missing piece at the table. We are a union family committed to providing a better life to all its members and their families. Working together, we bargain hard for better wages, stronger benefits, and a safe workplace for all our hard working members. We're determined to improve the lives of every worker. You deserve a better life, because you have earned it.

The UFCW represents thousands of healthcare workers across the country, including LabCorp employees.

Vote YES on June 12th
